STAFF MEMBER PLACEMENT SURVEY

RADIATION LABORATORY
MASSACHUSETTS INSTITUTE OF TECHNOLOGY
CAMBRIDGE - MASSACHUSETTS

JANUARY 31, 1946

FOREWORD

The following pages are intended to give as complete an account as possible of the relocation of the Radiation Laboratory Staff. It is hoped that this information will be useful to those who would like to know which members of our staff are at a given university or company. The survey will also, I believe, afford an interesting picture of the types of institutions our scientific personnel have chosen for their post-war work.

One pleasing and somewhat surprising fact the data show is the large number of younger staff members who have returned to the universities to continue their graduate education. Another interesting trend is the several groups of staff personnel who went together into small or comparatively new organizations.

At the time of writing this foreword, the placement program is essentially complete: practically all of our staff who have been available for employment are placed or at least have had several offers among which they have not yet decided.

All of us connected with the Placement Program recognize that the comparative ease with which it was carried out and its satisfactory results were, in large measure, due to the splendid record of achievement of the Laboratory as a whole, and to the intimate contact and appreciation of many of our staff members which scores of industries and organizations gained during the war years.

The survey shows then the industries, universities, research laboratories and other institutions where Staff Members of the Radiation Laboratory will work or study in the future. No attempt has been made in this listing to distinguish between those who have been placed as a result of the Laboratory Placement Program and those who have found positions for themselves.

Students who are returning to studies interrupted by the war are shown under the colleges or universities where they will resume their studies. In the latter instances, however, especially those who are working as teaching assistants or on fellowships, many such academic arrangements were made by Drs. Tape and Simmons, or at least initiated by them.

Those Staff Members who had not yet made a decision or whose plans regarding future employment had not been made on January 31, 1946 are omitted. Those of our staff who will remain until June, 1946, with the Division of Basic Research, the Contract Settlement Office, the Office of Publications, or the Past Personnel Office, and who have made no plans regarding employment after June, 1946 are listed under their respective divisions.

The data on placement were compiled over a period of four and a half months and may in some cases be outdated. We have attempted at all times to keep them as accurate as was reasonably possible.

I should like to express at this time my appreciation for the untiring efforts of Dr. Gerald Tape, the late Dr. S. J. Simmons, and Mr. J. A. Walsh, of my office, as well as the Division Heads, Group Leaders and Placement Officers, to all of whom is due extraordinary credit for the success of our Placement Program.

Our satisfaction in its results was greatly lessened by the sudden and untimely death of Dr. Simmons immediately after he had so successfully completed his work on academic placement.

Dear Dr. Terman:

Upon return from my trip, it is with pleasure that I take this opportunity to express my personal, as well as official, appreciation of the valuable services you have rendered QSRD.

More than four years ago you forsook your activities at Stanford University to come to the country's defense in the technical race which was on. You have given generously of your services often, I am sure, at great personal inconvenience and sacrifice.

Your effective leadership as Director of the Radio Research Laboratory surely contributed to the superiority of our country's position in the field of Radio Countermeasures. It is impossible here to enumerate the achievements of your laboratory.

I want also to commend you on your collaboration as a member of the various NDRC groups in which you have served. I note your appointment as a member of Division 14 has been terminated. While I am reluctant to see the dissolution of the work of that division, I believe the members may take pride in the attainments of radar.

It is a source of great pleasure to have worked with such men as yourself. To offset the regret that accompanies the severance of this common undertaking is the counterbalance that now we can bend our effort toward the realization of the values which it was our privilege to defend.

Cordially yours,

V. Bush

Dear Dr. Bush:

I very much appreciate your letter of February 27 regarding my service as director of the Radio Research Laboratory, and membership in various NDRC groups. This has been a most stimulating and satisfactory part of my life and no small part of the satisfaction comes as a result of the way in which you set up the entire scientific program.

I regret very much that I was away finishing up Radio Research Laboratory business at the time you visited Stanford in January, and so was not able to accept Dr. Spoehr's invitation to dinner during your visit. Our paths should, however, cross from time to time and I will look forward to continuing contacts with you.

Sincerely yours,

F. E. Terman

Dr. Frederick E. Terman
Radiation Laboratory

Dear Dr. Terman:

This letter is to confirm, on behalf of N.D.R.C., your appointment as Director of the R.C.M. project which is being set up under Section D-1, and to set forth certain understandings in regard to the development of this new project.

It is understood that the R.C.M.project initially will be set up as part of the Radiation Laboratory and will operate for the present as a separate and distinct project under the general policies and within the structure of the Radiation Laboratory. For various reasons, however, it is desirable that this project become administratively separate from the Radiation Laboratory as soon as possible, after which time the R.C.M. project and the Radiation Laboratory will be parallel activities, each under a director, both reporting to Section D-1. In this stage the connection between R.C.M. and the Radiation Laboratories will be through Section D-1 at the top and through informal personal cooperation down the line.

N.D.R.C. believes, as a matter of general policy, that undue concentration of its activities in any one institution should be avoided unless there are sound reasons of efficiency in such concentration. Consequently it is my hope that the sponsorship of the R.C.M.project can later be transferred from M.I.T. to some other institution, preferably Harvard in order that the easy working relationships with the Radiation Laboratory can be maintained. I would not recommend transference of the project away from this locality unless this should meet with your approval as director of the project. But even before possible transfer to the sponsorship of another institution, I believe that the administration of the R.C.M. project should be established as a separate entity as soon as this can be worked out between yourself for N.D.R.C. and Mr. Sage representing the contractor. Until this can be done, however, the R.C.M. group can use the purchasing and personnel organization of the Radiation Laboratory.

It is understood that as director of the R.C.M. project you will assume the following responsibilities and authorities:

1. To recruit the necessary personnel for an adequate organization to conduct this project. Some of the initial members of your organization may be, by mutual consent, furnished by the Radiation Laboratory, but you are authorized to secure additional personnel from outside the Laboratory, following in general the personnel and salary arrangements which are in force in the Radiation Laboratory, with such changes which seem to be necessary in particular cases as are agreed upon between yourself, Dr. F. W. Loomis, and the DIC office at M.I.T.

2. To make the necessary arrangements, in consultation with Dr. A. J. Allen, for preparing, occupying and equipping space in the Hood Building in which the Laboratory will operate for the present.

3. To purchase, at first through the Radiation Laboratory and M.I.T. purchasing organizations, such permanent equipment for the Laboratory and such apparatus and supplies as are required for carrying on this work.

4. To authorize travel orders for yourself, and such others of your organization as you designate, to make necessary trips for purposes of recruiting, consulting with Army and Navy officers and industrial companies in regard to the program of your Laboratory.

It is furthermore understood that you will be willing to take full responsibility for planning, organizing and directing the work connected with this project. The objective of the R.C.M. project I think has been made clear to you in general terms. The general policies under which the project operates are laid down by the Microwave Committee, Section D-1, and you are designated as their agent to execute these policies. It will be your responsibility to determine the size of the organization required to carry out these general plans and to recommend to Section D-1 the appropriation of the funds which you estimate will be required. You understand also, that the Massachusetts Institute of Technology as contractor with the N.D.R.C. is responsible for the general operation of the Radiation Laboratory and your Laboratory, and that both Laboratories operate under administrative procedures set up by M.I.T.

It is impossible at the present time to outline the scope and size of the R.C.M.project. The Microwave Committee has agreed, at the request of the Army and Navy, to undertake an intensive program on this subject. The particular lines of attack to be undertaken, however, will have to be outlined by your own organization, in consultation with the armed services, Microwave Committee and Radiation Laboratory members. It is anticipated that this project will be a very important one, and that during the next six or eight months it will have reached a status of employing 50 to 75 individuals. No definite budget for this project can as yet be set up but you will be asked to submit budget estimates as soon as these can be made to cover the work in the immediately foreseeable future.

The many administrative matters connected with the scientific program and the organization of this project cannot be outlined in writing, but must be worked out as they arise, in collaboration with and consultation with the Director of the Radiation Laboratory, the Chairman of the Microwave Section, Dr. Alfred Loomis, and with the President and other Administrative officers of M.I.T., all of whom will collaborate with you to the fullest extent to make possible the greatest possible success of this very urgent and important project.

In conclusion I would emphasize the ultra-secret character of this project. The work of the Radiation Laboratory itself is very importantly in the secret category, but the R.C.M. project is of such character that even greater care should be taken, not only to prevent any disclosure of information, but even to prevent every unnecessary intimation that work of this sort is in progress. Only by such care can the collaboration of the armed services and of our allies be secured and can the risk be avoided of losing the benefits of our effort.

Very sincerely yours

Karl T. Compton (signed)

Dear Dr. Terman:

Dr. Conant, Chairman of the NDRC, has asked me to advise you that you will shortly receive formal notification of your appointment by Dr. Bush, Director of OSRD, as a member of a new division being set up under NDRC, to be responsible for all activities in the field of counter measures and counter-counter measures. The new division will be under the Chairmanship of Dr. C. G. Suits and, for the time being, will be designated as Division F. The other members of the Division Committee being appointed at this time are Dr. K. C. Black, Bell Telephone Laboratories; Dr. L. A. DuBridge, Radiation Laboratory, M.I.T.; and Dr. C. B. Jolliffe, R.C.A. Additional members will probably be added to the committee later.

Dr. Suits is anxious to get the committee together promptly, and you may get a call from him before you get your formal notification of appointment, but you will know that it is on the way.

Dear Dr. Terman:

Upon receiving word from Dr. Trump that you had never received notice of appointment as Member of Section D-1, I wrote Dr. Stewart on June 12 requesting that such notice be sent you. I have just had his reply stating that this appointment letter was sent on March 26 to your Stanford University address since at that time he had had no notice of a change in your address. A carbon copy of this letter, which Dr. Stewart reports was sent to Dr. Compton, has not been found in our files or those of Dr. Trump. Dr. Stewart adds that, if upon checking your files in California and ours here, there is no record of this appointment, he will be glad to send a copy to you immediately. If, therefore, you find no record in your files, please let me know and I shall have a copy of the appointment by Dr. Conant sent you.

Your appointment was recommended by Professor Bowles on March 26 and you may be sure that all in the Division Office and in Section D-1 have considered you a member from the start. It is also evident that the Washington Office considers your appointment as having been made.

To Proposed Members of the "Coaxial Plug Standardization Committee":

A need which has commonly been felt in the past in the Radiation Laboratory is to have available more information about operational experience and field maintenance requirements of radar systems. An effort will be made to supply this need by having weekly meetings attended by some of the older, cleared members of the Laboratory at which matters of this sort will be discussed.

You have been chosen to be a member of this group and it is hoped that you will attend its first meeting which is to be held on Monday, July 13 at 4:30 P.M. in the conference room of Building 24. At this first meeting, Pilot Officer MacDougal of the R. A. F. will speak on his operational experience with airborne radar.

It is hoped that future meetings of this group will be addressed by members of the Armed Services, by foreign visitors, and by members of the Laboratory who have had field experience or special opportunities to obtain information regarding the tactical use of radar.

Owing to the fact that the membership of this group must be restricted in view of the highly confidential nature of many of the matters which will be discussed, it is probably advisable not to reveal the contents of this memorandum to other members of the Laboratory staff. I make this suggestion in order to avoid the feelings of jealousy which might otherwise arise.

Dear Dr. Bush:

I have your letter of November 2 notifying me of my appointment as a member of Division 7 of the National Defense Research Committee. I shall be happy to serve as a member of this division.

Very truly yours,

F. E. Terman
Director

Enclosed are two Division 14 proposals which will shortly be submitted to the NDRC. The one relates to the extension of the AGL-2 development program at Sperry which was discussed and approved at the November meeting, and the second covers a contract for engineering design services of the Chrysler Corporation on problems relating to precision antenna mounts.

In line with the reorganization of the National Defense Research Committee, Radar Division 14 has submitted to Dr. Conant its recommended organization as shown on the attached page. You will note that this follows closely the organization of former Section D-1, which has demonstrated its effectiveness during the past two years.

Dr. Bush in his directive to Dr. A. L. Loomis as Chief of the Division requested that cross-division membership be maintained with the special panels on Applied Mathematics and Engineering, as well as with other divisions engaged in related activities. Acting on this suggestion, Dr. Warren Weaver, Chief of the Applied Mathematics Panel, has been invited to become a permanent member of Division 14 and to represent his panel in the radar field. Drs. John C. Slater and Samuel A. Goudsmit of the Radiation Laboratory will act as a group to bring specific mathematical problems to his attention.

Enclosed are two Division 14 proposals which will shortly be submitted to the NDRC. The one relates to the extension of the AGL-2 development program at Sperry which was discussed and approved at the November meeting, and the second covers a contract for engineering design services of the Chrysler Corporation on problems relating to precision antenna mounts.

ORGANIZATION AND FUNCTIONS OF DIVISION 14 (RADAR) OF THE NDRC

April 7, 1943

I. Responsibilities of the Division - Division 14 is responsible for research related to radar and for the development of radar equipment. A major portion of these activities is centered in the Radiation Laboratory at MIT. Related developments are carried out in the laboratories and shops of 45 other contractors. The efforts of the Radiation Laboratory and cooperating groups have been directed primarily toward the development of the techniques and various tactical applications of microwave radar although problems concerned with longer waves are included in the program. There is also active participation on the radar aspects of other NDRC division programs. Among these are the development of means to protect radar against jamming undertaken for Division 15, radar homing devices for Division 5, and radar for fire-control applications for Division 7.

II. Organization of the Division - The organization of Division 14 and the general lines of flow of activity are shown in the Organization Chart on Page 2. The functions of the various committees and the Secretariat are as follows:

1. Radar Committee

a.) Membership

A. L. Loomis, Chief of Division 14, Chairman, 14 Wall Street, New York, New York

W. R. G. Baker, General Electric Company, Bridgeport, Connecticut

Ralph Bown, Bell Telephone Laboratories, 463 West Street, New York, New York

L. A. DuBridge, Radiation Laboratory, MIT, Cambridge, Massachusetts

Melville Eastham, General Radio Company, Cambridge, Massachusetts

Ray C. Ellis, War Production Board, Washington, D. C.

J. A. Hutcheson, Westinghouse E. & M. Company, Baltimore, Maryland

Loren F. Jones, RCA Victor Division, Radio Corporation of America, Camden, New Jersey

I. I. Rabi, Radiation Laboratory, MIT, Cambridge, Massachusetts

C. G. Suits, General Electric Company, Schenectady, New York

F. E. Terman, Radio Research Laboratory, Harvard University, Cambridge, Mass.

J. G. Trump, Secretary of Division 14, MIT, Cambridge, Massachusetts

A. T. Waterman, MIT, Cambridge, Massachusetts

Warren Weaver, 49 West 49th Street, New York, New York, Math. Panel Respresentative

H. H. Willis, Sperry Gyroscope Company, Manhattan Bridge Plaza, Brooklyn, New York

b.) Function - The Radar Committee guides the broader policies and efforts of the Division. Through representation on the Committee, close liaison is maintained between the principal industrial establishments and research laboratories concerned with radar, and a sound, well-rounded development program is assured.

All contract proposals are reviewed by the Radar Committee, and must be approved by it before submission to the NDRC. Manpower problems are considered by a Subcommittee, the membership of which is as follows:

A. T. Waterman, Chairman, MIT, Cambridge, Massachusetts

J. G. Trump, MIT, Cambridge, Massachusetts

F. W. Loomis, Radiation Laboratory, MIT, Cambridge, Massachusetts

RESTRICTED

c.) Meetings - The Radar Committee meets twice monthly. At the first meeting of the month, the members usually inspect the activities of a Division contractor or a Service unit prior to their business meeting. At the second meeting of the month, held in Washington, an open discussion attended by representatives of the Armed Services precedes the regular business session.

d.) Subsections - There are two Division 14 subsections. These consider the special problems of model shop activities and navigational aid developments. Their membership is as follows:

Section 14.1, RCC Model Shop

Melville Eastham, Chief
General Radio Company,
Cambridge, Massachusetts

L. A. DuBridge, Radiation
Laboratory, MIT, Cambridge,
Massachusetts

E. C. Hutchinson, Research
Construction Company, Cambridge, Massachusetts

J. G. Trump, Tech. Aide — Oma L. Goldie, Secy.
J. R. Loofbourow, Tech. Aide — Martha W. Brown, Secy.
J. L. Danforth, Tech. Aide — Edna M. Cherry, Secy.

*Janet A. Black, Messenger
*Mary Keegan, Messenger
*Mary J. Ellis, Secretary

*Assigned to Division 14
by Radiation Laboratory

b.) Function - The Division 14 Secretariat, at MIT, Cambridge, Massachusetts, acts for the Radar Committee in carrying out the general technical and administrative functions of Division 14 and in maintaining as far as possible a maximum of coordination in the radar research and development program as a whole.

III. NDRC Subcommittee on Radar - The NDRC Subcommittee on Radar consists of:

Karl T. Compton, Chairman, Massachusetts Institute of Technology, Cambridge, Massachusetts

Frank B. Jewett, Western Electric Company, 195 Broadway, New York, New York

Captain Lybrand Smith, Office of the Coordinator of Research and Development, Navy Department, Washington, D. C.

Dear Dr. Terman:

It is my pleasure to offer you an appointment as Member of the Vacuum Tube Development Committee of the National Defense Research Committee. I hope that you will find it possible to accept this opportunity to share in a field of service which is vital to the war effort.

The Vacuum Tube Development Committee is being set up under authorization given me by the Director, Office of Scientific Research and Development. Dr. I. I. Rabi will serve as Chairman and will report directly to me. You will not be remunerated by the Government for serving in this capacity.

Because of the highly confidential nature of the Committee's work, it is customary to caution each new appointee of the need for the utmost secrecy with respect to all activities which come to his attention in his official capacity. No part of the work may be discussed with any person, civilian, military, or naval, except as designated by the Committee, its authorized representative, or by the Office of the Executive Secretary.

The Members of the Committee have taken the Oath of Office, and all members of the Committee's organization are asked to do likewise. Please take the enclosed Oath before a justice of the peace or notary public and return it, duly witnessed, to me, together with a written acknowledgment of this letter.

I believe you will find lasting personal satisfaction in this opportunity to contribute to the war effort your specialized knowledge and abilities.

Very truly yours,

James B. Conant

Dear Dr. Terman:

As you may know, Section 14.1 of Division 14 of the National Defense Research Committee has been inactive as such for some time because of certain changes in the organization of the work. Therefore, it seems appropriate to terminate your appointment as a Member of that Section.

I wish to thank you, on behalf of the OSRD, for the able assistance you have rendered in connection with this important phase of the work of Division 14, and to express my sincere appreciation of the splendid contribution you are making to the war effort in your present capacity.

Sincerely yours,

Dear Dr. Bush:

OSRD Memorandum No. 72 regarding "Conflicts of Interest" has been studied in connection with my WOC appointment as a member of Division 15.

Inasmuch as my entire salary is charged against Contract OEMsr-411, which is administered by Division 15, it appears that I clearly come under Rule 6 of the memorandum.

In view of the fact that it is the administrative policy of OSRD as expressed in the March 15 memorandum to avoid such situations, I hereby submit my resignation as a member of Division 15. Although I have not been aware of any circumstances in the past where my simultaneous connection with Division 15 and PRL has resulted in a conflict of interest, nevertheless, I recognize the reasonableness of Rule 6 as a general policy for OSRD to follow.

Very truly yours,

(a) Whoever, for the purpose of obtaining information respecting the national defense with intent or reason to believe that the information to be obtained is to be used to the injury of the United States, or to the advantage of any foreign nation, goes upon, enters, flies over, or otherwise obtains information concerning any vessel, aircraft, work of defense, navy yard, naval station, submarine base, coaling station, fort, battery, torpedo station, dockyard, canal, railroad, arsenal, camp, factory, mine, telegraph, telephone, wireless, or signal station, building, office, or other place connected with the national defense, owned or constructed, or in progress of construction by the United States or under the control of the United States, or of any of its officers or agents, or within the exclusive jurisdiction of the United States, or any place in which any vessel, aircraft, arms, munitions, or other materials or instruments for use in time of war are being made, prepared, repaired, or stored, under any contract or agreement with the United States, or with any person on behalf of the United States, or otherwise on behalf of the United States, or any prohibited place within the meaning of section 36 of this title; or (b) whoever for the purpose aforesaid, and with like intent or reason to believe, copies, takes, makes, or obtains, or attempts, or induces or aids another to copy, take, make, or obtain, any sketch, photograph, photographic negative, blueprint, plan, map, model, instrument, appliance, document, writing, or note of anything connected with the national defense; or (c) whoever, for the purpose aforesaid, receives or obtains or agrees or attempts or induces or aids another to receive or obtain from any person, or from any source whatever, any document, writing, code book, signal book, sketch, photograph, photographic negative, blueprint, plan, map, model, instrument, appliance, or note, of anything connected with national defense, knowing or having reason to believe, at the time he receives or obtains, or agrees or attempts or induces or aids another to receive or obtain it, that it has been or will be obtained, taken, made or disposed of by any person contrary to the provisions of this title; or (d) whoever, lawfully or unlawfully having possession of, access to, control over, or being intrusted with any document, writing, code book, signal book, sketch, photograph, photographic negative, blueprint, plan, map, model, instrument, appliance, or note relating to the national defense, willfully communicates or transmits or attempts to communicate or transmit the same to any person not entitled to receive it, or willfully retains the same and fails to deliver it on demand to the officer or employee of the United States entitled

to receive it; or (e) whoever, being intrusted with or having lawful possession or control of any document, writing, code book, signal book, sketch, photograph, photographic negative, blueprint, plan, map, model, note, or information, relating to the national defense, through gross negligence permits the same to be removed from its proper place of custody or delivered to anyone in violation of his trust, or to be lost, stolen, abstracted, or destroyed, shall be punished by imprisonment for not more than ten years and may, in the discretion of the court, be fined not more than $10,000. (June 15, 1917, c. 30, Title I, Sec. 1, 40 Stat. 217, as amended by Public Act No. 443, Laws of 1940.)

Section 32. Unlawfully disclosing information affecting national defense.

Whoever, with intent or reason to believe that it is to be used to the injury of the United States or to the advantage of a foreign nation, communicates, delivers, or transmits, or attempts to, or aids or induces another to, communicate, deliver, or transmit, to any foreign government, or to any faction or party or military or naval force within a foreign country, whether recognized or unrecognized by the United States, or to any representative, officer, agent, employee, subject, or citizen thereof, either directly or indirectly, any document, writing, code book, signal book, sketch, photograph, photographic negative, blueprint, plan, map, model, note, instrument, appliance, or information relating to the national defense, shall be punished by imprisonment for not more than twenty years: Provided, That whoever shall violate the provisions of subsection (a) of this section in time of war shall be punished by death or by imprisonment for not more than thirty years; and (b) whoever, in time of war, with intent that the same shall be communicated to the enemy, shall collect, record, publish, or communicate, or attempt to elicit any information with respect to the movement, numbers, description, condition, or disposition of any of the armed forces, ships, aircraft, or war materials of the United States, or with respect to the plans or conduct, or supposed plans or conduct of any naval or military operations, or with respect to any works or measures undertaken for or connected with, or intended for the fortification or defense of any place, or any other information relating to the public defense, which might be useful to the enemy, shall be punished by death or by imprisonment for not more than thirty years. (June 15, 1917, c. 30, Title I, Sec. 2, 40 Stat. 218.)

Section 33. Seditious or disloyal acts or words in time of war.

Whoever, when the United States is at war, shall willfully make or convey false reports or false statements with intent to interfere with the operation or success of the military or naval forces of the United States or to promote the success of its enemies and whoever, when the United States is at war, shall willfully cause or attempt to cause insubordination, disloyalty, mutiny, or refusal of duty, in the military or naval forces of the United States, or shall willfully obstruct the recruiting or enlistment service of the United States, to the injury of the service of the United States, shall be punished by a fine of not more than $10,000 or imprisonment for not more than twenty years, or both. (June 15, 1917, c. 30, Title I, Sec. 3, 40 Stat. 219; Mar. 3, 1921, c. 136, 41 Stat. 1359.)

Section 34. Conspiracy to violate preceding section .

If two or more persons conspire to violate the provisions of sections 32 or 33 of this title, and one or more of such persons does any act to effect the

object of the conspiracy, each of the parties to such conspiracy shall be punished as in said sections provided in the case of the doing of the act the accomplishment of which is the object of such conspiracy. Except as above provided conspiracies to commit offenses under this chapter shall be punished as provided by section 88 of Title 18. (June 15, 1917, c. 30, Title I, Sec. 4, 40 Stat. 219.)

Section 35. Harboring or concealing violators of law.

Whoever harbors or conceals any person who he knows, or has reasonable grounds to believe or suspect, has committed, or is about to commit, an offense under this title shall be punished by imprisonment for not more than ten years and may, in the discretion of the court, be fined not more than $10,000. (June 15, 1917, c. 30, Title I, Sec. 5, 40 Stat. 219, as amended by Public Act No. 443 Laws of 1940.)

Section 36. Designation of prohibited places by proclamation.

The President in time of war or in case of national emergency may by proclamation designate any place other than those set forth in subsection (a) of section 31 of this title in which anything for the use of the Army or Navy is being prepared or constructed or stored as a prohibited place for the purposes of this chapter: Provided, That he shall determine that information with respect thereto would be prejudicial to the national defense. (June 15, 1917, c. 30, Title I, Sec. 6, 40 Stat. 219.)

Section 37. Places subject to provisions of chapter.

The provisions of this chapter shall extend to all Territories, possessions, and places subject to the jurisdiction of the United States whether or not contiguous thereto, and offenses under this chapter when committed upon the high seas or elsewhere within the admiralty and maritime jurisdiction of the United States and outside the territorial limits thereof shall be punishable hereunder. (June 15, 1917, c. 30, Title I, Sec. 8, 40 Stat. 219.)

Section 38. Jurisdiction of courts-martial and military commissions.

Nothing contained in this chapter or chapter 12 of this title shall be deemed to limit the jurisdiction of the general courts-martial, military commissions, or naval courts-martial under chapter 36 of Title 10 and chapter 21 of Title 34. (June 15, 1917, c. 30, Title I, Sec. 7, 40 Stat. 219.)

Section 39. Jurisdiction of courts of Canal Zone and Philippine Islands of offenses on high seas.

The several courts of first instance in the Philippine Islands and the district court of the Canal Zone shall have jurisdiction of offenses under this chapter and chapter 12 of this title committed within their respective districts, and concurrent jurisdiction with the district courts of the United States of offenses under this chapter and chapter 12 of this title committed upon the high seas, and of conspiracies to commit such offenses, as defined by section 88 of Title 18, and the provisions of said section, for the purpose of this chapter and chapter 12 of this title, are hereby extended to the Philip-

pine Islands and to the Canal Zone. In such cases the district attorneys of the Philippine Islands and of the Canal Zone shall have the powers and perform the duties provided in this chapter for United States attorneys. (June 15, 1917, c. 30, Title XIII, Sec. 2, 40 Stat. 231.)

Section 40. "United States" defined.

The term "United States" as used in this chapter and chapter 12 of this title includes the Canal Zone and all territory and waters, continental or insular, subject to the jurisdiction of the United States. (June 15, 1917, c. 30, Title XIII, Sec. 1, 40 Stat. 231.)

Section 41. "Foreign government" defined.

The words "foreign government", as used in this chapter, shall be deemed to include any government, faction, or body of insurgents within a country with which the United States is at peace, which government, faction, or body of insurgents may or may not have been recognized by the United States as a government. (June 15, 1917, c. 30, Title VIII, Sec. 4, 40 Stat. 226.)

Section 42. Effect of partial invalidity of chapter.

If any clause, sentence, paragraph, or part of this chapter or of chapter 12 of this title shall for any reason be adjudged by any court of competent jurisdiction to be invalid, such judgment shall not affect, impair, or invalidate the remainder thereof but shall be confined in its operation to the clause, sentence, paragraph, or part thereof directly involved in the controversy in which such judgment shall have been rendered. (June 15, 1917, c. 30, Title XIII, Sec. 4, 40 Stat. 231.)

Dr. F. E. Terman
Director, Radio Research Laboratory

Dear Dr. Terman:

I have your letter of April 17 tendering your resignation as a Member of Division 15. The reasons that you state are such that I am compelled to accept your resignation. I want you to know, however, that I feel, with you, that your membership did not result in any actual conflict of interest as between your responsibilities as Director of the Radio Research Laboratories and as a Member of Division 15. Your resignation will merely clear up a ground for possible misunderstanding.

I am sure that Dr. Suits desires that you continue to attend Division 15 meetings where your advice and counsel as Director of one of its most important laboratories will be of real benefit to the Division. The marked success that has come from your unstinted efforts in a very difficult technical field has been greatly appreciated by all of the NDRC organization which has been privileged to know of it.

Sincerely yours,

V. Bush

ENCLOSURE A

COMBINED COMMUNICATIONS BOARD

Organization and Functions

General and Membership

1. The Combined Communications Board is the supporting agency of the Combined Chiefs of Staff on communication matters. It consists of:

U.S. Members	U.K. Members
The Chief Signal Officer, U.S. Army	Representatives of:
The Communication Officer, U.S. Army Air Forces	Director of Signals, Royal Navy
The Director of Naval Communications	Director of Signals, British Army
The Communication Officer, Headquarters, Commander-in-Chief, U.S. Fleet	Director of Signals, Royal Air Force
	Dominion of Canada
	Commonwealth of Australia
	New Zealand Government

The Combined Chiefs of Staff (Joint Chiefs of Staff) are supported by the following additional boards and committees:

Combined (Joint) Staff Planners
Combined Administrative Committee
Munitions Assignment Board, Washington
Combined (Joint) Intelligence Committee
Combined (Joint) Military Transportation Committee
Combined (Joint) Meteorological Committee
Combined (Joint) Civil Affairs Committee

In addition, the Joint Chiefs of Staff are supported by the following boards and committees having no equivalent under the Combined Chiefs of Staff:

Joint Strategic Survey Committee
Joint Production Survey Committee
Joint War Plans Committee
Joint Logistics Committee
Joint Logistics Plans Committee
Joint Committee on New Weapons and Equipment
Army-Navy Petroleum Board
Office of Strategic Services
O.S.S. Planning Board
Joint Security Control
Joint Post-War Committee
Joint Munitions Allocations Committee

Duty and Authority

2. It is the duty of the Combined Communications Board to take such action as may be necessary to coordinate methods, procedures, operations, equipment (including recommendations for the coordination of research, development and allocation to meet operational needs), and all communication matters of combined application. By custom and usage the Board additionally handles Radar, Infrared and Countermeasures matters.

3. The Combined Communications Board has authority to implement its agreed decisions except on matters of major policy, which will require the approval of the Combined Chiefs of Staff.

(NOTE: For charter of C.C.B., see page 54.)

Supporting Boards and Their Duties

4. The Combined Communications Board, (C.C.B.) is supported by the U.S. Joint Communications Board in Washington (U.S.J.C.B., or J.C.B., composed of the U.S. members of the C.C.B.) and by the British Joint Communications Board in London (B.J.C.B., composed of the three British Directors of Signals, or their representatives.

5. British officers serve as consulting members of the U.S.J.C.B.; and U.S. officers serve as consulting members of the B.J.C.B.

6. It is the duty of the U.S.J.C.B. and the B.J.C.B. to work in close collaboration with and undertake tasks assigned to them by the Combined Communications Board.

U.S. Joint Communications Board

7. The U.S. Joint Communications Board (U.S.J.C.B.) is the agency in the U.S. Joint Chiefs of Staff organization with cognizance of communication matters. (See also paragraph 2.)

8. The membership of the U.S.J.C.B. is made up of the U.S. members of the C.C.B., listed in paragraph 1, supra. Whenever a member of the J.C.B. is unable to attend a meeting, he will appoint a deputy who shall have plenary powers.

9. The duties of the U.S.J.C.B. are to:

a. Make recommendations to the Joint Chiefs of Staff as to United States communications policies.

b. Coordinate methods, procedures, operations, equipment (including recommendations for the coordination of research, development and allocation to meet operational needs), and all communications matters of joint U.S. application. (See also paragraph 2.)

c. Establish its own method of procedure.

d. Implement its agreed decisions except on matters of major policy.

e. Form committees from personnel of the Army and Navy as required to assist it in the performance of its duties.

10. The U.S. J.C.B. is authorized to request all service and governmental agencies and activities for information and assistanc as may be required in connection with its duties.

(NOTE: For charter of U.S.J.C.B., see page 55.)

Combined (Joint) Coordinating Committee

11. The work of the C.C.B. is carried on by supporting committees. The Combined Coordinating Committee (C.C.C.), consisting of two U.S. and two British officers, is authorized by the C.C.B. to:

a. Direct, coordinate and expedite the work of committees and subcommittees including the assignment of specific tasks to particular committees and subcommittees.

b. Render reports directly to the C.C.B. when committee or subcommittee action appears unnecessary.

c. Make pertinent comments and recommendations on completed committee reports forwarded to the C.C.B.

d. Insure that matters pertaining to more than one committee or subcommittee shall be considered by all committees and subcommittees concerned, in parallel, or joint session, rather than in succession.

e. Wherever practicable, set due dates for completion of committee and subcommittee reports and arrange interim meetings of committees and subcommittees when urgent or emergency action is necessary.

f. Define the functions of committees and subcommittees in order to minimize the need for formal cross-referencing from one committee or subcommittee to another.

g. Approve operating signals for combined use and to implement such decisions by promulgation through the C.C.B. secretariat direct to the Services and without reference to the C.C.B.

h. Act on all requests for RESTRICTED C.C.B. publications.

i. Act for and in the name of the Board on committee reports and other matters not involving policy or controversy, keeping the Board advised of all action taken on its behalf. (NOTE: This subpar. i. applies to the Joint Coordinating Committee only.)

The U.S. members of the C.C.C. comprise the U.S. Joint Coordinating Committee (J.C.C.).

Supporting Committees and Their Composition

12. In addition to the C.C.C. (J.C.C.), there are some thirty-five committees, subcommittees and working committees of the C.C.B. (J.C.B.), each organized to study and report upon problems arising in a designated sector of the communications field. The authorized membership of committees and subcommittees varies from six to sixteen representatives of the armed forces of the United States (who also compose similar committees and subcommittees of the U.S.J.C.B.) and a like number of representatives of the armed forces of the British Commonwealth. J.C.B. 260/2, approved by the C.C.B. and the U.S.J.C.B. on 1 August 1945, establishes the membership of the various committees and some of the subcommittees. Members of committees and subcommittees are chosen to represent the interests of their organizations and to contribute expert

knowledge and experience to the solution of problems. Alternates (usually limited to one for each member) are also authorized. Nominations of members and alternates are made by the several branches of the various services. Appointments are made by the respective J.C.C.'s and confirmed by the C.C.C. The particular branch of the services desiring to appoint a member or alternate on any of the committees or subcommittees under the C.C.C. should send the name of its nominee to its own secretariat which will place the nomination on the agenda of its own J.C.C. The appointment will then be confirmed or rejected by the C.C.C.

committees will be held as often as necessary to enable committees to complete their work expeditiously.

Expert Assistants

20. Committees and subcommittees may request the presence of specially qualified persons, military or civilian, from the Army and Navy, to aid them in effectively accomplishing their work. Such persons may also serve on working committees.

Coordination

21. Complete coordination of all matters must be effected at committee and subcommittee level. Complete coordination requires (a) consultation by the committee assigned primary interest with other committees or subcommittees having an overlapping interest; (b) consultation by the members of the committee assigned primary interest with their respective services for advice; and (c) consultation as arranged by the committee assigned primary interest for the advice of the services not included in the membership of the committee. However, committees are required to make solutions of the problems presented after full consideration of all pertinen factors. They should approach all problems with open minds and

Committee Agenda

34. On 14 Nov 44, the J.C.C. promulgated the following to joint committees:

"a. Where items appear on committee agendas which have been introduced by its members at committee level, the committee should scrutinize them with a view to determining whether they are of sufficient importance to warrant consideration by the committee and a formal recommendation to the J.C.B. If not, they may be dropped forthwith without reference to the J.C.B.

b. Where items appear on agendas as a result of being referred to the committee by sources outside the committee, the committee should also scrutinize them. If it appears to the committee that any of these items should be dropped, recommendation to that effect should be made to the J.C.C., with reasons therefor."

Definition of Terms

35. The following definitions of terms have been adopted by the C.C.B.:

(1) Intra-Service:

Within, and only within, a particular service of one nation.

(2) Joint:

Between all of the services of one nation, but not necessarily within the services of that nation.

(3) Combined:

Between all of the services of one nation and all of the services of another nation, but not necessarily within a particular service of either nation or between the services of either nation.

(4) Limited Combined: (_____ _____ _____)

Between one or more specifically designated services of one nation and one or more specifically designated services of another nation, but not between all of the services of one nation and all of the services of another nation; and not necessarily within a particular service of either nation or between the services of either nation. The specifically designated services in all cases should be included in (_____ _____ _____) after the term "Limited Combined".

(5) Universal:

Both between and within each and every service of the United States and the British Commonwealth, wherever located.

C.C.B. (J.C.B.) Agenda

36. The Agenda for meetings of the C.C.B. (J.C.B.), committees and subcommittees shall constitute a continuing inventory of all pending items. No item appearing on an agenda is to be removed

SC 160 Series I Box 4 Folder: 12
1942-46 Appointments (Divisions 14 and 15)

therefrom until it has been considered and acted upon. Items not originating within the C.C.B. (J.C.B.) structure will be added to the Board Agenda as soon as received.

Completion Dates

37. The C.C.B. (J.C.B.) has authorized the C.C.C. (J.C.C.) secretariat to fix dates for the completion of reports and other matters by committees and subcommittees.

Reference to the Combined Chiefs of Staff of matters on which no agreement is possible

38. No measure is adopted by the C.C.B. (J.C.B.) by majority vote (C.C.B. 11/1). It is the duty of chairmen of committees and subcommittees to secure a unanimous agreed decision or a detailed minority report signed by the dissenting members or the senior member of the dissenting group. When disagreement occurs between the U.S. and British members of the C.C.B., a brief report stating the points at issue and their implications is forwarded to the C.C.S., with copies to the U.S. and British Chiefs of Staff. When disagreement occurs as a result of one or more members of the C.C.B. (J.C.B.) dissenting from a majority report, the C.C.B. (J.C.B.) forwards to the C.C.S. (J.C.S.) a statement of the points at issue and the implications and requests the dissenting members to render a statement of their case to their own service chief of staff. Subsequent action in either case is ordered by the C.C.S. (J.C.S.).

VACUUM TUBE DEVELOPMENT COMMITTEE

A Supporting Committee of the

JOINT COMMUNICATIONS BOARD

10 January 1946.

Dr. F. E. Terman
Leland Stanford University
California

Dear Dr. Terman;

I should like to express, on behalf of the Committee, our sincere thanks to you and the members of your Subcommittee for your most wholehearted cooperation with us in the past. Your contribution of effort and time during the war was an important factor in the effectiveness of the Committee to the Services.

The Services have decided that the activities of the VTDC should be continued in peacetime. However, a reorganization has been effected under a new Charter and all previously existing Subcommittees have been disbanded.

It is contemplated that the Committee will continue to be the medium through which the Services will cooperate with one another and industry on vacuum tube problems. The Secretariat will be responsible for the coordination and dissemination of up-to-date information on electron tube development, and towards this end its investigators will maintain close contact with the various Service and company laboratories in the field. The Committee will also provide special consultation services to the Army and Navy on Government tube projects. Technical men, prominent in the industry, will be asked to serve as consultants to the Committee.

For your information, a copy of our new Charter and "Procedures of the VTDC" are enclosed.

Again let me express our thanks for your assistance. I want to assure you that any suggestions you might care to make as to the Committee's operations will be most welcome.

Very sincerely yours,

L. A. Turner.

L. A. Turner

FUNCTIONS AND ORGANIZATION OF VTDC

I. The Vacuum Tube Development Committee hereinafter referred to as "The Committee" is established under the Joint Communications Board as a supporting agency of the Joint Chiefs of Staff.

II. **Functions**

The Committee shall be responsible for formulating general policies regarding research, development, use and application of vacuum tubes for military purposes and shall advise the Army and Navy on such policies. The Committee shall have the following functions, together with such additional functions as may, from time to time, be assigned to it by the Joint Communications Board:

1. It shall keep itself completely informed regarding the status and progress of vacuum tube research and development.

2. It shall release to authorized personnel of the War and Navy Departments such of this information as may be required in the performance of their duties.

3. It shall release information to personnel or agencies other than those in (2) above only upon authorization of the Committee and after receipt of written agreement by authorized representatives of the company or group holding title to such information.

4. It shall study, through standing sub-committees or ad hoc committees, problems arising in the course of vacuum tube development for military purposes. Recommendations for action will be forwarded directly to the cognizant Service authority.

5. It shall call to the attention of the Joint Communications Board with appropriate recommendations, any cases concerning vacuum tube development in which satisfactory action is not attained as a result of Committee action.

6. It shall forward recommendations regarding basic research, specifications, standardization and procurement to the cognizant authority in each case. Action on such matters will be at the discretion of the cognizant authority and will not be the subject of action to the Board.

7. It shall have cognizance over and shall direct engineering, technical, secretarial, and other contracted services provided by the War and Navy Departments in fulfillment of the Committee functions.

III. Organization

1. Membership

All members shall be appointed by the J.C.B. upon the following recommendations:

a. Senior Military Members

One each shall be designated by the:

Chief Signal Officer

Commanding General, ATSC

Chief, Bureau of Ships

Chief, Bureau of Aeronautics

b. Military or Civilian Members Representing the Armed Forces

One each to be designated by:

Commanding Officer, SCEL

Director, ORI (NRL)

Chief, Bureau of Ordnance

Chief of Ordnance

Chief, Electronic Subdivision, Engrg. Div. ATSC

Chief, Bureau of Aeronautics

c. Civilian Members Representing Non-Military Government Agencies

One each to be designated by:

Director, NBS

Other agencies as may later be nominated by the Committee and approved by J.C.B.

d. Civilian Members Representing Academic Research and Development in electron tubes.

One each to be designated for a term of two years by:

IRE

AIEE

American Physical Society

e. Technical Observers

Technical Observers may be designated by interested government agencies subject to appointment by the Committee and after such appointment shall be eligible to attend regularly the meetings of the Committee, during their term of appointment.

Occasional technical observers may be invited to attend meetings of specific interest to them upon action of the Committee.

f. Liaison Representatives

Liaison Representatives of foreign governments

or organizations may be appointed for stated periods or purposes by the Joint Communications Board on the recommendations of the Committee.

2. Officers

a. Chairman

The Chairman shall be an outstanding civilian scientist or engineer primarily affiliated with a university, a non-profit research organization, or a government research agency, other than the War and Navy Departments. He shall be nominated by the head of the Government civilian research agency when that body is established. In the interim, he shall be nominated by the Committee. Appointment shall be made by the Board.

The term of office shall be two years.

The Chairman shall be a voting member, shall preside at all meetings of the Committee, and shall have the usual powers and duties of a Chairman of a Committee of the Joint Communications Board and in addition shall have such special duties as may be prescribed by the Joint Communications Board.

b. Vice Chairman

The Committee shall elect a vice chairman from its Senior Military Members.

c. Secretary

The Committee shall appoint a Secretary.

The Secretary shall be responsible for the general administrative duties of the Committee and

its subsidiary-committees, shall keep minutes of all meetings, shall maintain such records and reports as are necessary or desirable for the efficient conduct of such activities, and in addition shall have such powers or duties as may be given to him by the Committee.

3. Subsidiary Committees

The Committee is empowered to appoint subsidiary committees to carry out its functions.

PROCEDURES OF VTDC

I. DEFINITIONS

1. Vacuum Tube

For the purposes of the Vacuum Tube Development Committee a vacuum tube shall be any electronic device in vacuum or partial vacuum or such substitute therefor as the Committee may consider proper.

II. COMMITTEES

1. General

Notices of all regular and special meetings shall be mailed by the Secretariat at least seven days in advance of the meeting day, together with a properly prepared agenda. Incorporated in the announcement of meetings shall be the request to advise the Secretary if the member is not to be present. No visitor shall be allowed at any committee meeting without first being cleared through the Chairman of that committee.

Minutes of all meetings will be maintained by the Secretary and mailed to members, technical observers, and to the J.C.B. Secretariat as soon thereafter as possible.

2. Vacuum Tube Development Committee

The Committee will serve as a policy committee and shall instruct its sub-committees and ad hoc committees. Matters of major policy shall be referred to the J.C.B.

The Committee shall be the only group of the VTDC structure authorized to transmit official advice and recommendations to other agencies. Official communications from other agencies will be received and acted upon by the Committee.

Unless otherwise decided, regular meetings of the Committee

shall be held at 10 a.m. on the first Monday of each month. Meetings shall be held at least twice a year.

3. Sub-Committees

a. Executive Sub-Committee comprises the Senior Military Military members of the committee. The Chairman of the committee shall be the chairman of the Executive Sub-Committee, ex officio.

The Executive Sub-Committee will be responsible for:

i. Recommending policy decisions to the Committee.

ii. Preparing agenda with the help of the Secretariat for meetings of the Committee.

iii. Preparing a yearly schedule of meetings and visits.

iv. Acting for the committee in authorizing release of information as described in the Functions and Organization of the VTDC, Para. II,2.

v. Performing such other duties as the Committee may designate.

b. Technical Sub-Committees

The following Technical Sub-committees shall be formed:

i. Sub-committee on Miniature & Receiving Tubes.

ii. Sub-committee on RF power tubes.

iii. Sub-committee on power supply and control tubes.

iv. Sub-committee on indicator and pick up tubes.

These committees shall consist of those people from government agencies or non-commercial organizations who are qualified technically to consider the particular types of tubes or their applications. The Chairman and membership shall be selected by the Committee. The chairman shall

ordinarily be a member of the VTDC.

It shall be the purpose of each sub-committee to make recommendations to the Committee on all aspects of the tubes in its category and to perform any special studies requested by the Committee.

The sub-committees may at their discretion, invite to their meetings industrial personnel from a special list maintained by the Secretariat for advice on specific problems. Industrial personnel on the above list shall be named by the Committee, and shall be cleared as individuals rather than company representatives by the Services for complete information. An individual named to this list shall be an expert on specific problems and not necessarily a policy making representative of a company.

c. Ad Hoc Sub-Committees

At the discretion of the Committee ad hoc committees may be set up for special purposes.

III. COMMITTEE PROCEDURE

The Committee acts through a majority vote of its members or their alternates taken at any regular or special meetings at which a quorum (defined as a majority of members or their alternates) is present; provided that such majority vote include the votes of at least three of the senior military members.

Any member or alternate, if unable to attend an announced meeting may authorize another member or alternate to act on his behalf. Failing such action, any member or alternate who is absent from an announced meeting is considered to have agreed with any decision taken upon any item appearing on the agenda except when

an emergency prevents his attendance. In the event of such an emergency, a request for reconsideration of any item acted upon in the absence of a member or his alternate must be given to the Secretary at the earliest opportunity.

In the interim between meetings the Executive sub-committee may act for the Committee subject to review by the Committee at its next meeting.

IV. SECURITY

The Committee Security Regulations are set forth in J.C.B. Memorandum No. _____.

V. CIRCULATION OF INFORMATION WITHIN THE VTDC

1. All information available shall be circulated to the members and technical observers of the Committee. Releases to liaison representatives of foreign governments shall be limited to the stated period or purpose for which their presence with the Committee has been approved by the J.C.B.

2. A circulation list shall be compiled and reviewed by the Committee every few months.

3. When the Secretary believes that information is of legitimate value to a group, information should be sent according to appropriate security regulations.

4. Publication surveys of vacuum tube development shall be circulated within the Services through the Joint Communications Board of J.C.S. Information to any other government agency which is in existence or may be organized shall be transmitted through channels approved by the J.C.B.

VI. LIAISON

1. General

The Committee shall be informed of all specialized vacuum tube meetings known to its members so that a representative of the Secretary may attend in order to maintain the most complete information.

VII. VACUUM TUBE DEVELOPMENT GROUP

The Committee is assisted by a Vacuum Tube Development Group (VTDG) which provides technical services and facilities. This Group consists of several members appointed by the Committee and appropriate secretarial help. It maintains complete files on vacuum tube development projects and maintains close liaison with vacuum tube development agencies. The Group is further responsible for the publication of all material for the Committee and its associate committees, and provides facilities for meetings and library services.

The budgets of this group shall be passed upon by the Committee.
